J. J. BONNELL NURSERYMAN SEATTLE

LOCATION: Our office and salesground are located at 2600 East Galer on the Washington Boulevard, and can be reached by the 23rd Avenue car line leaving at the Post Office, and by automobile by following the Interlaken Boulevard. Growing department, 14 acres, Kirkland, Wash.

PLANTS OFFERED in this price list are all grown under our personal supervision and may be considered the very best that money can buy.

OUR STOCK is carefully transplanted several times before it is offered for sale and has the very best of root system, insuring full success in transplanting. Digging and packing is done by experienced help and is as well done as modern methods will permit.

PLANTING—Ornamentals, deciduous trees, shrubs, evergreens, etc., may be set out at any time in the fall after the rainy season commences and continued through the winter and spring until about May 1st.

But when possible, transplant in the fall. It is much easier for the plants to take hold of the new soil, and stock thus transplanted will be more vigorous and much easier to take care of the first year.

CARE IN PLANTING—Dig the soil about 2 feet deep; if any sod or leaves are at hand, use a good layer of them at the bottom of the hole; firm the soil around the roots when planting; water plants thoroughly after planting.

If manure or commercial fertilizer is used, incorporate same with soil; we much prefer use of manure or commercial fertilizer on top of the soil around the tree and let the rain wash same into the soil during the winter.

The tree should be placed in the hole with the roots spread out in their natural position. Work a little fine soil between the roots. Examine roots of trees and plants carefully before planting and remove all broken or bruised roots.

Shape the top of the tree by pruning, so as to make a good foundation for a well-shaped tree.

EVERGREEN TREES do not require triming, but in the event they are getting too large for the space where they are planted, they can be trimmed same as any other plants. The best time to do it is in the spring, from middle of March to June 1st. Keep them well watered after trimming and if the soil is poor, give them a good mulching.

TERMS OF SALE**TERMS—CASH.**

PRICES are understood net at the Nursery.

DELIVERY—If given reasonable time we will deliver free of charge within the City limits, or the immediate vicinity. Special delivery will be charged at cost. Orders from out of town customers will be delivered free of charge to the railroad or steamer.

PACKING—All orders which have to be packed in bundles or boxes will be charged for the cost of the material used, not to exceed 10 per cent of the value of the order.

INSPECTION—Our Nurseries are regularly inspected twice a year by the Federal and the State authorities. Our stock is therefore perfectly free from any insects or diseases.

ETHICS—Our aim is to promote the Horticultural industries to conform to sound business methods, to render honest service and to guarantee a square deal to customer, competition and supplier.

GUARANTEE—Our stock is guaranteed to be healthy, true to name and of size and quality represented. Should errors occur, we agree upon receipt of proper proof to replace the same or else refund the money received for them; but we will not be in any way responsible for the crop. If the purchaser does not accept these goods on above terms, no sale is made thereof and the goods must be returned to us at once.

CLAIMS—For any cause will receive consideration only when made within six days after arrival of goods at destination.

NOVELTIES and **NEW VARIETIES** will be found offered under their respective headings. We endeavor to test all new American and European introductions, offering only those we believe will be of value, and discarding old sorts only as they are superseded by better kinds.

REMEMBER a tree, shrub or plant is a living organism, and is liable to attack of diseases and insects. At prices we sell, it is impossible for us to guarantee growth or to be responsible for stock after delivery in good condition is made.

IMPORTANT

Prices herein listed is for good, healthy, medium sized stock. In almost any varieties we have larger and smaller sizes than the ones listed and prices for same will be made accordingly.

J. J. BONNELL.
